

CELEBRATING THE HISTORY OF Westport's Ferry Landing

In 2026, Westport Island History celebrates its storied cable ferry and ferry landing where the newly renovated Westport Island History Center presides over the ferry's one-time route across the Back River to Wiscasset.

This celebration of our history, the Ferry Landing exhibit, and History Center renovations were made possible by the gracious support of Westport Island residents and the generous financial support of our sponsors. Join us in celebrating and thanking our supporters who help keep Westport Island History Alive!
